

TEACHING KIDS THE RESPECT FOR THE MARINE ENVIRONMENT THANKS TO ADRIATIC LNG

This year too Adriatic LNG is sponsoring “ChioggiaVela”, a course that introduces children to sailing and also teaches them to respect and protect the marine environment. The initiative is organized by the Municipality and Pro Loco of Chioggia, together with Chioggia Yacht Club and thanks to the economic contribution of Adriatic LNG, who has always paid special attention to youth educational projects.

The aim of “Chioggia Vela Junior” is getting young students to know the sea and the sailing activity as well as favoring the integration of disabled kids through sport. From May 16, more than 400 kids, aged 8-11, coming from Chioggia’s primary schools, will be involved in training courses where teachers of Chioggia Yacht Club, belonging to Italian Sailing Federation, will teach them the basics of sailing.

“Chioggia Vela Junior” also included a training session in class. Before experiencing boat sailing, kids have been taught respect of marine environment and basic information such as winds, points of sailing, maneuvers, rules, boat structure. Useful information for the kids involved in the project who will sail an “Optimist” boat in Lusenzo Lagoon.

Also disabled kids will have the opportunity to experience a safe sailing thanks to Chioggia yacht club’s instructors, the MARAMAO Sailing Team and the help of expert kids.

Chioggia Vela and Chioggia Vela Junior are part of the initiatives for the protection of the environment supported by Adriatic LNG. Such initiatives include the support to Levante Angler’s Club of Porto Levante; the publication of the Handbook "fishing and ichthyic tourism" or the workshop on Fishing Tourism as a driver for local economy, organized with Confcooperative Rovigo.
